

# OPTICUT C 700

## Cross cutting systems with future

### OptiCut C 700 – the convincing saw system for large cross sections:

- **Reliable:** Proven technology from WEINIG
- **Efficient:** Effortless even when cross-cutting heavy / hard timber and big cross sections with a high cutting frequency thanks to a powerful saw motor
- **Flexible:** Maximum cutting capacity width / height optimised by an adjustable fence
- **Safe:** 2-hand control system, protection shield and downholders to assure highest safety standards
- **Compatible:** The saw can easily be linked to different WEINIG machines or integrated into production lines

### Wide range of accessories:

- Easy and quick loading of the machine thanks to a lowerable protection shield combined with a small space requirement
- Exact and comfortable cross-cutting thanks to infeed / outfeed rollerway tables and infinitely adjustable stop flaps for unedged timber

### Technical data:

#### Capacity saw motor

5.5 kW / 7.5 kW (\*)

#### Sawblade diameter

550 mm

#### Cross section area

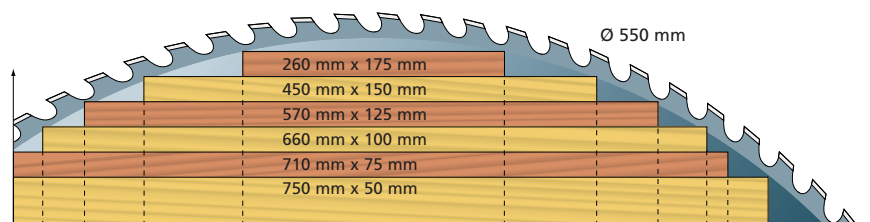

min. 20 mm x 10 mm

max. 260 mm x 175 mm

750 mm x 50 mm

CE approved,  
approved by German Liability  
Insurance Association  
(\*) option

### Cross cutting area:

We reserve the right to make technical changes. Statements and pictures in this brochure may also include optional extras which are not included in the standard equipment. Protective covers partly removed for photography.
